

MASTER OF SCIENCE IN ENGINEERING MSE PROGRAM Temporary Lecturer Positions

The Master of Science in Engineering Program at SJSU invites applications for an ongoing pool of qualified temporary lecturers for courses in all areas of Engineering, including but not limited to: Systems Engineering (System Engineering Management, System Conceptual Design, System Design and Integration, and System Test and Evaluation), Engineering Management. Applicants should have competencies in or related to one or more of the following areas that include: Engineering Analysis, Engineering Management, Systems Engineering, Electrical Engineering, Computer Engineering, Software Engineering, Mechanical Engineering, and Optoelectronics Engineering.

Candidates with experience to teach courses in the above areas are encouraged to apply. These appointments are temporary and generally a semester long. Holders of PhD, or MS with significant industrial experience, and demonstrated potential for university teaching are the minimum qualifications.

An applicant should send a cover letter, disciplines or topics or courses qualified to teach, curriculum vitae, evaluations of teaching (if available), and names of three people willing to write letters of recommendation.

Mail (or email) your application to:
