

Dear Prospective MSE Student,

It is my pleasure to inform you that the advisors of the Master of Science in Engineering (MSE) concentration and emphasis areas have recommended you for Spring 2009 admission to the MSE program. Officially, only the University Admissions Office can admit students. However, we anticipate that you will be receiving your admission letter from the university in the near future if you have not received it by now.

This letter is intended to facilitate your transition to the campus. We strongly encourage you to visit the MSE web site at <http://www.engr.sjsu.edu/ges/students/advising> and click on the link entitled What to do before you come to campus. The document you will see provides important information that you should know before arriving. Please review this document as soon as possible.

The main MSE web page at <http://www.engr.sjsu.edu/ges/>, under the NEWS Section, will contain the time and location of forthcoming Spring '09 orientation and Q&A sessions. We strongly recommend that you attend at least one of the orientation sessions, and attend at least one Q&A session per semester.

An important part of your success at SJSU is to remain engaged and informed. The College of Engineering (COE) will be hosting welcome and advising events. Visit the main COE web page periodically to review announcements. Also, join the MSE Student Google email group at http://groups.google.com/group/sjsu_mse_students. Important announcements and information is disseminated via this forum.

We look forward to seeing you on campus next semester. Please do not hesitate to contact us if you have any further questions.

Regards,

Leonard Wesley, MSE Director
Graduate & Extended Studies
