SAN JOSE STATE UNIVERSITY

## Enroll in Bioengineering Minor!

Bioengineering is the application of engineering principles to the fields of medicine and biology. Bioengineers combine their knowledge of several engineering areas with biology to analyze and solve problems with living systems.

### Benefits of Bioengineering Minor:

- Excellent preparation for employment in a growing industry
- A real-world, industry-oriented curriculum with professionals
- A complement to traditional engineering knowledge with industry-specific knowledge
- Excellent preparation for medical or graduate school

### Who Should Apply?

Students presently majoring in an engineering discipline, chemistry, physics or biology.
